TDGA COVID-19 Update March 30, 2020, 06:45 AM

Good Morning,

Yesterday reports from around the state began to reach us indicating the Ohio Department of Health had reversed itself and golf courses would be allowed to operate under Section 5 paragraph c of the Ohio Stay at Home Order, assuming course operators follow the safe space guidelines contained in the order.

If you decide to open, you may still be asked to justify your operation as essential under Ohio’s current operating guidelines. You should be sure to have a written plan that justifies your actions.

For an example of best practices click here.

Please do not let your players gather for post round beverages.

Finally, last night President Trump advised coronavirus precautions should be extended through the end of April. Don’t be surprised if the Health Department reverses course again.

Sincerely,

The Toledo District Golf Association
