TDGA COVID-19 Update April 1, 2020 11:00 AM

Good Morning,

The COVID-19 pandemic is no April Fool’s joke.

Anecdotal reports continue to reach us indicating that clubs and golfers are not following Ohio’s Social Distancing policies in the Stay at Home order. And more importantly that some clubs around the state may not be following safe practices in equipment cleaning (carts).

The picture above is from Brandywine Country Club, taken in 2014. Let’s all do our part to make sure no current pictures show up that look similar to the one above. This disease is dangerous and appears to be highly communicable. Please do your part to follow the directions in the Ohio Stay at Home order.

If the health departments, police, or other authorities hear of these reports, see pictures, or have personal observations they will close your operation. And if it happens often enough they’ll close golf. This virus is not going to stay out of your club because it’s not a member.

Don’t be a fool. Get out and spread out. Follow the rules.

For our current list of best practices click here.

Sincerely,

The Toledo District Golf Association
